COURT DETERMINES MEMBERS OF ELKS

Hearing Will Be Held

RECALLS GOLDEN DAYS OF LODGE

Property Will Be Sold,
It Is Said, To Wind
Up Order's Affairs

The decree of Register in Chancery Marvin West, setting August 10 as the day when a final hearing will be held "to ascertain who were the members in good standing of Decatur Lodge No. 855 of the Benevolent and Protective Order of Elks at the time of the dissolution of said lodge, etc." will call to the minds of many of the older residents the Twin Cities the years 1901 and 1902, when the local Elks were at the height of their glory and usefulness.

Judge O. Kyle stated that he difficulty of establishing who were the members of the local Elks at the time the lodge ceased to function here many years ago, arose from the fact that the complete records of the lodge meetings, as kept by the different secretaries, had been misplaced and had not as yet been found.

The hope was expressed by a number of the old members of the Elks including Judge Kyle, Judge William E. Ekeggs, B. P. Wallace and others that the complete records of the now departed lodge would be found by August 10.

It is understood that some property, said to be the property of the local Elks, will be sold and distributed to said members, if they can be identified.

Many of the original members of Decatur Lodge No. 855 of the Benevolent and Protective Order of Elks have long since passed away, including Captain Jack Edwards and many others prominent in the Twin Cities over twenty years ago.

Following their organization about the year 1902 the local Elks first met in temporary quarters, and later had permanent apartments in the furnished upper rooms of the old Brock and Spight building on the east side of Bank street.

One of the exalted rulers, or presiding officers of the local Elks, stated Judge Kyle this morning, was B. P. Wallace, while two of the former secretaries were Ed Albers and Earnest Carriear.

ALABAMA FACING CHANCE TO ADVANCE

(By Associated Press)
MONTGOMERY, Ala., July 30.—Alabama has a chance to step from the bottom of the list of states in prison reform to the top, is the opinion of Dr. R. Stagg Winton, president of the national committee on prisons and prison labor.

"Your Kilby prison is a model in modernness. It has none outside of New York that can equal it. My, but the changes that have taken place in Alabama since my first visit here under the O'Neal administration.

"The next step will be the abolition of the convict lease system. That must be only a matter of time. And let me say, that in desiring nationwide publicity in selling Alabama's great resources, there is nothing that will be more of an advertisement than a model convict system.

"Products of Kilby prison are being sold too low, however. They are barely paying for the operation of the plant. Your convict labor is being given away," Dr. Winton declared.

"The system of work from sun-rise to sun-set under the lease system must go. It has gone everywhere except in Alabama already."

SAYS WIFE FLED WITH OBSCURE DENTIST

E. W. Browning and adopted children.

Edward W. Browning, multimillionaire New York real estate operator, son of the founder of Browning, King & Co., an immense New York clothing house, has filed suit for divorce against his wife, Mrs. Nellie Browning, alleging she has fled to Paris with Dr. Charles Wilen, an obscure Bronx (New York) dentist, who is said to be Mrs. Browning, who is 14 years older than his beautiful wife, had recently made over a trust fund of \$100,000 for her. They had no children but had adopted two, one of whom, Margery, is missing. The Browning's New York home, atop an office building, with artificial lakes and gardens, was one of the most beautiful in the metropolis.

Warrenberg Minister Delivers Fine Sermon At Central Baptist Church

The story of Onesimus as told in the book of Philemon was the basis of a notable sermon by Dr. E. G. Stout, of Warrenburg, Mo., at the Central Baptist church last night. Dr. Stout drew only two distinct lessons from the history of Onesimus, first "The profitability of any life depends upon its relation to the Lord Jesus Christ" and second, "The test of any life is found in what the individual owner of that life will say, do and sacrifice."

By way of illustration of what some use religion for, Dr. Stout related after his sermon how when an exceedingly religious negro woman was questioned as to how she could do and say so many bad things replied, "Why, honey, my religion is just for enjoyment purposes only."

Dr. Stout said that it was his desire for enjoyment that got Onesimus into trouble, and would have kept him there but for the power of the gospel as preached by St. Paul.

Dr. Stout said that Onesimus was a servant of Philemon and while Paul, Philemon, and his servant all lived in Palestine, had doubtless heard

Tax Exemption Bills Are Planned

(By Associated Press)
MONTGOMERY, Ala., July 30.—Two bills, one exempting cotton mills and other providing cotton mills or shipbuilding plants shall be exempt from county taxation, will be introduced in the senate this afternoon.

Encouragement of the cotton industry in Alabama and extension of a willing hand to shipbuilders and the manufacturers of cotton and woolen clothes is the object of the two bills, Senator Overton, author of the two bills, said this afternoon.

The first bill is said to provide for exemption of all cotton mills with a valuation of more than \$50,000, from all state, county and municipal taxation, although it would not exempt the grounds of such plant.

The second bill would provide for the cessation taxes by county commissioner or other county authorities on mills and shipbuilding plants.

Paul preach but heeded it not at first, not until after he fled to Rome because he had stolen from his master Philemon. At Rome, the miscreant encountered St. Paul and was finally converted to Christianity.

St. Paul, in the book of Philemon, stated Dr. Stout, directed the converted man to return to Philemon, tell him all and offer to become his slave. St. Paul was represented as telling Onesimus, that in his opinion Philemon would receive his old servant not as a slave, but as a brother in the church. And Philemon did that very thing, according to the preacher.

"There is something wrong with your spiritual birth, if, as church members you cannot get along," declared Dr. Stout. All bright Christians receive others as brethren, just as Philemon did the erring Onesimus," declared the visiting minister.

The services were opened by a song service, the numbers being announced by B. B. Pickens, who led the hymns, with Mrs. D. D. Gibson at the organ. Mr. Pickens sang a solo just before the church announcements as made by B. L. Malone.

Fortune Obtained Three Bold Bandits

(By Associated Press)
SCRANTON, Pa., July 30.—Three bandits held up the paymaster of the Avoca Coal Company on a Laurel line train at Moosic today, using revolvers freely, killing one man named Murphy and wounded two others. The men made their escape, getting away with the mine payroll, amounting to between \$85,000 and \$90,000.

Peebles Declares Crops Are Better

John H. Peebles, who was here for the week end, stated that crop conditions in this section were much better than over the Tennessee river in the Mooresville section.

Mr. Peebles stated that the lack of rain had greatly retarded both corn and cotton and that unless considerable rain came soon, the crop conditions were bad in his neighborhood.

BOWLES EXPLAINS PLANS FOR CIRCUS

Shriners Have Bought
The Exhibition For
Five Day Period

TAKE POSSESSION UPON ARRIVAL

Members Of Shrine To
Sell Peanuts And
Be 'Ballyhoos'

With the arrival in the Twin Cities Monday of Robert W. Thompson, personal representative of Bob Morton, owner of the exhibition the Tennessee Valley Shrine club has engaged for its five nights of circus performances, starting Tuesday, August 7, final plans for the event will be completed. Assistant Circus Director Frank M. Vernon has been in daily conference with Shrine officials the past two weeks.

President Thos. A. Bowles is most enthusiastic over the impending circus, and stated: "We are holding our show for the purpose of increasing our general fund, and we intend to make it the biggest event of the kind ever attempted in this part of Alabama; we have practically bought outright, for the period named, a complete circus, from the stakes in the ground to the fluttering flags of the big top. We did this only after exhaustive investigation, the Bob Morton circus company being recommended to us by the potentate of Jerusalem temple, New Orleans, where they exhibited ten days. Also, we acted on the advice of Potentate Harrison B. Cave, of Hella Temple, Dallas, Texas, where the Morton Shrine circus exceeded the gross receipts of the Texas state fair last year."

"We take possession when the show enters the local railroad yards and we handle all the money and business details; we sell the tickets and take them; we welcome and seat our patrons; we operate on the merits of the show inside the tents; our Nobles occupy all the booths and we have no doll racks or merry-go-rounds, or anything that savors of like nature. One hundred Nobles of our club will be on duty, and there will be hearty hand-claps and salutations, instead of the cold-blooded methods usually prevalent around a circus lot. We have fourteen committees and they are functioning one hundred per cent.

"The Morton people are all professional circus artists and they will give the entire exhibition; there will be no home talent, as we do not intend our patrons shall pay money to see some boy 'kid' himself into thinking he is an acrobat or contortionist. The circus is in Paducah, Kentucky, this week, where the Shrine club there has charge of it, and we have clippings from the Paducah papers, printed on page one, telling of the high-class nature of the exhibition. We are working hard, and are greatly pleased over the outlook."

CUNO CABINET FALL SEEMS IMMINENT

(Associated Press)
LONDON, July 30.—The Central News correspondent at Berlin has sent the following dispatch here: "Your correspondent learns in well informed political quarters that the resignation of the Cuno cabinet is certain. Herr Cuno, himself, is convinced this step must be taken."

"It is understood that the leaders of the new cabinet will be Paul Loebe, president of the Reichstag, and Dr. Gustav Stresemann, leader of the people's party."

"A definite decision will not be reached before the meeting of the Reichstag next week."

NEGRO CLERK BACK ON TUSKEGEE JOB

John C. Calhoun, Who
Left His Post, Will

HIS INITIAL VISIT WAS INTERRUPTED

Parade Of Klansmen In
"Silent Protest"
Cause Of Hurry

(Associated Press)
TUSKEGEE, Ala., July 30.—John C. Calhoun, negro bookkeeper, who was assigned to duty at the negro veteran's hospital here several weeks ago, and who suddenly left his post, has returned to assume his duty, it was announced here today.

Calhoun was ordered to report at Tuskegee a week ago and Colonel R. H. Stanley, commanding officer at the hospital, was directed by General Hines, of the veterans bureau, to afford him protection.

Calhoun's initial visit to Tuskegee was marked by a parade of several hundred Ku Klux Klansmen who marched the streets and highways of the countryside in what was termed a "silent protest" to sending negro personnel to the hospital by the government.

BAND APPEARS IN CONCERT TUESDAY

The people of the Twin Cities are full of expectancy for the initial public performance of the Albany-Decatur concert band, which will occur at the Princess theatre, Tuesday night.

The performance will be staged under the auspices of the chamber of commerce, the Morgan Kiwanis club and every patriotic citizen is an individual sponsor of the new band.

The entire seating capacity of the big theatre will be taken, it is predicted.

The rehearsals of the band have been under the direction of Prof. H. B. Marston, than whom there is no more noted musical director south of the Mason and Dixon line. A single fact concerning Mr. Marston is enough to prove to those who know the musical world only slightly, that he is high up among the musicians of the times—he was formerly a prominent member of the noted Innes Band.

It is expected that some active member of the Kiwanis club or of the chamber of commerce will introduce Prof. Marston to the audience just before the curtain rises on the local citizens, of whom Prof. Marston has made musicians within a few months time.

As a favor to the band, as well as to those who will patronize the big entertainment Tuesday night, a number of the most choice local entertainers have kindly consented to take a part in the program.

Mrs. H. O. Troup, Mrs. H. R. Summers, Thomas A. Bowles, Jr., Mrs. John L. Proctor, Willard Proctor, Mrs. Joseph Petty, Miss Flossie Griffin and A. L. Rundle will favor the audience with a number of musical selections.

King's noted March—"The Avenger"—will probably open the evening's entertainment after the preliminaries are over. Second the overture "Lustspiel" will be rendered; followed in succession by "The Dance of the Imps," "Evening Shadows," and "Operatic Gems."

Eighth on the program is a clarinet solo, probably by Prof. Marston. The waltz "Siren," the march "South Winds," and "The Joy Riders," are among the numbers to be rendered by the band. The names of the selections of the local people, not regular members of the Albany-Decatur concert band, are to be announced later.

IMPORTANT BANK LAWS INTRODUCED

Important banking laws were recently introduced in the Senate by Senator Melvin Huston of Decatur, according to W. W. Fussell, Chairman of the Legislative Committee of the Alabama Bankers Association. Senate Bill No. 260 limits loans by state banks to 20 per cent of the capital, surplus and profits, except that banks may advance larger amounts on manufactured, agricultural products and livestock, as well as public bonds.

Another measure prohibits derogatory statements of banks and provides punishment therefor. A further bill purports to make the sworn report of an examiner of banks prima facie evidence in court. Still another bill protects banks in the payment of raised or forged checks unless the customer to whose account the check was charged give the bank written notice within sixty days after the return of the canceled check by the bank to the customer. Other bills relate to the conversion of national banks into state institutions and protecting banks in the payment of checks against the account of deceased, insane and bankrupt depositors where the bank has no knowledge of such.

All of this legislation has the endorsement of the Legislative Committee of the Association.

CROP FAR SHORT

(By Associated Press)
GREENVILLE, Ala., July 30.—Cotton crops in this section are far from favorable, according to farmers. Butler, Covington and Conecuh counties all report poor conditions in both corn and cotton. According to planters in Covington, the cotton crop will be fifty per cent of normal, while those of Butler and Conecuh hold out little more hope.

Ptomaine Poisoning Is

By Other Illness

(By Associated Press)
SAN FRANCISCO, July 30.—President Harding will be rushed back to Washington by special train as soon as he recovers from his present illness sufficiently to travel, probably in two weeks.

The two San Francisco physicians who were called into consultation by Brigadier General Sawyer, were again in conference with Dr. Sawyer at 9:30 this morning. The two doctors had spent the night in the hospital with the President.

Following the conference in the department, a former president of the medical association, again met with the consultants. Prior to the meeting none of the physicians would give any statement, but it was learned that General Sawyer would give a bulletin after the conference.

SAN FRANCISCO, July 30.—President Harding today is a sick man.

How serious is his illness, the physicians have not said, beyond the statement issued last night saying "new symptoms" had arisen during the day, indicating complications in the case of President, but it was regarded as of sufficient importance last night to cause a cancellation of the chief executive's entire California program and to bring about a consultation with which two leading California physicians were called.

Four physicians participating in the consultation concluded their meeting early today without issuing any statement, although Brigadier General Sawyer, Dr. Hubert Work, secretary of the interior department and a former president of the American Medical Association, Dr. Ray Lyman Wilbur, president of Stanford University, and the present head of the American Medical Association, and Dr. Charles W. Cooper, of Stanford University, a heart specialist.

The calling in of Dr. Cooper, together with other developments, indicated that the effect of possible complications on the President's heart action were being watched carefully.

No plans for the return trip to Washington, either by the planned water route, through the Panama canal and by the way of Porto Rico and the Virginia islands, or by train overland, will be made until the President recovers, it was emphasized.

Some members of the party today expressed the belief the water trip would be abandoned and that Mr. Harding would return by train without any stop for speeches or receptions. Other members were of the opinion that after he regains his strength a sea trip will be needed to put him on his feet again.

The President's sick room is on the eighth floor of a downtown hotel, to which he went on his arrival here early yesterday, after abandonment of the trip to Yosemite. Every effort had been made to give him as much quiet as possible and early this morning orders were given to let no one except members of the presidential party, on the eighth floor.

Dr. Sawyer was in attendance upon the arrival of the President, or close at hand all last, assisted by Lieutenant Commander Joel W. Boone, a naval surgeon, who since Mrs. Harding's illness last fall, has been assistant white house physician.

General Sawyer promised last night that bulletins giving the President's condition would be issued.

WE FAVOR ACCEPTANCE FOR MUSCLE SHOALS OF HENRY FORD'S BID

THE HABIT OF GUARDING AGAINST FIRES SHOULD BE CULTIVATED.

Those most active in the operation of the fire departments of the Twin Cities are constantly insisting on greater care against the fire demon. They are right in their contentions. The importance of guarding our homes and business against fire cannot be overestimated.

Why intelligent people, who are careful to guard themselves and their families against other dangers, will persist in going on with spark catching roofs, with defective electric wiring and with bad flues, is past finding out.

There are many things about a house that need attention all too numerous to mention, if fires are to be reduced to a minimum.

There are ordinances on the books of the two cities, which require that all buildings of the future shall be covered with non-inflammable materials. Those ordinances could be carried out to the letter, and still great danger to fire might still exist in all parts of the cities. There are ordinances requiring that all repairs on house roofs be made with non-inflammable materials. These ordinances could be carried out to the letter, and still there might continue to be great danger from fires.

In the matter preventing fires, just as in preventing any other danger, merely following out rules will accomplish but little. Only as all the people make it their business, and an every day study to prevent fires can the dangers from the fire demon be escaped.

Mole hills are unscalable mountains to those who are not shod with the iron of determination.

A SOUTHERN MAN A WORLD LEADER.

The election of E. Y. Mullins as the president of the Baptist World Alliance elevates that distinguished Southern man to a place in the leadership of the world. Dr. Mullins, will have back of him from six to ten million Baptists in this country alone, not counting the Baptists beyond the seas and thousands of others of other churches and of no church affiliation. The rise of Dr. Mullins from an unlettered telegraph operator in a small Texas town to his present eminence is one of the many hundreds of proofs that the leaders of the world, especially in religious affairs have come from the ordinary walks of life. Following his decision to enter the ministry, young Mullins set about fitting himself for the largest usefulness possible, by attending the best schools available. He was a student in the Louisville Seminary of which he is now the distinguished president.

It is pointed out that the selection of Dr. Mullins to head the world Baptist alliance at the Stockholm convention came about in a logical way. The Southern Baptist convention is the largest single body of Baptists in the world, and Dr. Mullins as near as any one man stands at the head of a denomination is the head of Southern Baptists.

But it is pointed out also that Mullins' ability to lead had a lot to do with his selection at Stockholm.

He had shown that he could lead by building up a great church school at Louisville, and in the recent Southern Baptist convention at Hot Springs it was a resolution drawn by Dr. Mullins that aided greatly in preventing a break in the Baptist ranks between the fundamentalists and the modernists. At Stockholm when difficult questions of creed came up, and when it was proposed that the convention enter a Christian unity movement that would, in part, have done away with beliefs long held by Baptists were already observing Christian unity and were not letting peculiarities as to creeds separate them from unity of spirit with other denominations.

One other piece of diplomacy is credited to Mullins at Stockholm, namely that "as near as Baptists can be pledged" this Southern telegrapher, grown to be a religious leader, pledged the Baptists of the world to the league of nations.

This last accomplishment, it is pointed out by writers, may prove to "be one of great importance in the never ending effort to bring peace and good will among the peoples of all the world."

The new leader of the Baptists World Alliance has spoken in the Twin Cities a number of times in the last few years and in all his addresses he is credited with bringing new light and a broader outlook.

The trouble about so many trains of thought is, they get no higher than to think out means of curing rheumatism or for getting a higher rental.

Peace is often maintained between individuals, when there is little or no peace in the individual.

Same Train Hits Two Auto Parties

CHICAGO, July 30.—Thirty-five persons were killed and ten injured yesterday and early today in railroad crossing accidents in various parts of the country.

One Pennsylvania train struck two automobiles within a few hours, four persons being killed in the first crash and nine in the second. The first accident occurred at Highland, Ill., where an automobile apparently became stalled on the tracks as the speeding train approached. A few hours later the same train struck an automobile at Liggett, Ind., eight miles from Terre Haute. Nine were killed.

condition, would be issued regularly for the information of the public and sometime today, after a meeting of the physicians, a bulletin is expected. The real cause of the executive's illness, as explained yesterday by Dr. Sawyer, lies in some crabs he ate aboard the naval transport Henderson, just before reaching Vancouver, B. C. These crabs, in the opinion of Dr. Sawyer, were "copper tainted," or like sea foods taken from several small areas of Alaskan waters, had become impregnated with copper from the deposits of that mineral along the coast line. Eating these crabs gave the President a touch of ptomaine poison from which he seemed to be recovering until his visit to Seattle last Friday. The strenuous program he followed there aggravated the poisoning and the disorder became more serious than before.

Episcopal School Opens August 9

The annual summer training school for church workers of the Protestant Episcopal church will be held at Sewanee, Tenn., in the University of the South, August 9 to 22. The enrollment will exceed 500.

A large number of the clergy and laity of Alabama will attend, headed by Bishop Coadjutor McDowell, Rev. J. M. Stoney of Anniston, Rev. E. C. Seaman of Gadsden and Rev. Louis Tucker, D. D., of Mobile, will be on the faculty. The Alabama Young People's Service League will be represented by its diocesan president, Miss Doris Alexander of Mobile.

The Alabama contingent has been invited to present episodes in the Church Pageant which will be a feature of this session under the direction of Rev. Clarence Parker of Fayetteville, Ark.

The Rev. and Mrs. T. G. Mundy will attend the conference. Mr. Mundy will leave here on August 9th, Mrs. Mundy going from Birmingham will join him at Sewanee. Sunday, August 5th, will be Mr. Mundy's last Sunday at St. John's Church before his vacation. He will return for the second Sunday in September. During his absence there will be no service at St. John's.

LEAGUE TO MEET.

The Luther League will meet Tuesday evening at 7:30. All members were requested to be present.

WEATHER

For Alabama: Partly cloudy tonight and Tuesday probably local thundershowers.

For the South Atlantic and East Gulf States: Temperatures near the average are indicated, with generally fair weather, but there is probability of widely scattered thunder showers.

Amusements

One of the new big Fox special pictures, "My Friend, the Devil," is to be shown at the Princess Theatre beginning today.

William Fox has already given a host of fine super pictures to the great motion picture public and his specials for this year are, without question the finest that has been offered in picture houses. His "Nero," his "Monte Cristo," his "Silver Wings," and others have won the applause of both New York and London.

Of this picture one New York critic wrote:
"A powerful drama, splendidly acted by a superb cast. It features one of the most absorbing climaxes in the history of the silent art."

Fight Predicted On Road Unit Measure

MONTGOMERY, Ala., July 30.—A fight is expected to result in the senate today when the body takes up the bill of Senator J. M. Foster of Tuscaloosa providing for the reduction of members on the state highway commission twelve to three.

The bill has been made a special order for this afternoon at three o'clock.

Favor and opposition to the measure has both been expressed by senators and the measure is expected to find rough sailing before passage or defeat.

TO MAKE HOME HERE

The many friends of Dr. A. H. Manley, who for many years was pastor of the Westside Presbyterian church, will be glad to learn that he and his family will live here in the future.

Dr. and Mrs. Manley have been living in Asheville, N. C., for a number of years.

APPOINTED DE MOLAY DEPUTY IN CANAL ZONE

James is deputy of the Southern Supreme Council of Scottish Rite Bodies and is very active in Masonic work.

FINDS HUSBAND'S DEAD BODY

Remains of Man, Dead About a Month, Discovered in Box in Tin-smith Shop.

New York.—The body of Charles G. Service was found jammed in a box behind the counter of his tin-smithing shop in Brooklyn, by his wife, Mrs. Mary Carden Service and Louis Struttwolf. An ambulance surgeon said that the man had been dead about a month.

The box is about four and a half feet long, two feet deep and two feet high. It was closed and the hasp was down over the staple when Struttwolf unlocked the door of the shop and found it behind the counter. Probably nothing will be known of the manner or cause of death until an autopsy has been performed.

Mrs. Service told the police that her husband frequently left her and stayed away for weeks at a time and that the last time he went away was two and a half months ago. She visited his shop several times, but found the door locked, and Struttwolf, who had a key, was notified. He unlocked the door and the body was found.

MATCH IN PANTS KILLS MAN

Sets Fire to Alcohol Soaked Clothes, Causing Death Before Flames Were Put Out.

New York.—John Wilson, forty-five years old, was burned to death when he dropped a lighted match into the cuff of his trousers.

When he saw his clothes were burning he ran out to the street and fell to the sidewalk. He was dead before the fire was extinguished.

The police found pieces of a bottle in Wilson's pocket which, they said, probably had broken and saturated his clothing with alcohol, causing the flames to spread quickly.

Mother Avenges Son's Wails.

Peoria, Ill.—When her son complained that he had been whipped in school, Mrs. Elizabeth Kiebach beat a school teacher, Miss Katherine Koepfel.

Miss Koepfel did not paddle the boy, however, and the mother is now charged with assault and battery.

Set Fire to Load of Hay.

Medford, N. J.—Setting fire to a load of hay was a costly prank for James L. Campbell. He must pay for the property he destroyed, a \$50 fine, and may lose his license to operate the motorcar in which he was riding when he threw a lighted match into the hay.

Stop that Eczema!

AMAZING results have been produced by S. S. S. in cases of eczema, pimples, blackheads and other skin eruptions. If you have been troubled with eczema, and you have used skin applications without number, make a test yourself, on yourself, with a bottle of S. S. S., one of the most powerful blood cleansers known. S. S. S. makes the blood rich and pure, and when your blood is freed of impurities your stubborn eczema, rash, tetter, skin eruptions, pimples, blackheads, blotches and acne are bound to disappear. There are no unproven theories about S. S. S.; the scientific results of each of its purely vegetable medicinal ingredients are admitted by authorities.

S. S. S. is sold at all good drug stores in two sizes. The larger size is more economical.

The Meat of the Wheat

STARCH is the "meat" of the wheat berry. It is the great energy-producing element of the grain.

But, in order to do you any good, it must be thoroughly digested, and it is right here that such a food as Grape-Nuts renders special service.

Grape-Nuts, made from wheat and malted barley, supplies the meat of the wheat in most digestible form.

That is because in the making of Grape-Nuts a large proportion of the starch is converted into dextrins and maltose—forms into which all starch elements

must be changed before they can be assimilated by the system.

Grape-Nuts not only digests easily, but also aids in the digestion of other foods.

Crisp, delicious Grape-Nuts with milk or cream is a complete food. It supplies the life-essential vitamin-B; also iron, phosphorus and other important mineral elements for nerve, tooth, bone and other body structure.

The daily use of Grape-Nuts is a form of health insurance which has demonstrated its value for more than 25 years.
